SAKSHAM GAGNEJA

Product Designer · Frontend Developer

+91 8178304447 sakshamgagneja2015@gmail.com LinkedIn Delhi, India

PROFILE

Product Designer turned Frontend Developer. I combine a strong 2-year foundation in **UI/UX Design** with a modern stack of **React, Next.js, and Tailwind CSS**. I specialize in building "design-engineered" products—ensuring that complex ideas become clean, functional, and pixel-perfect code.

EDUCATION

B.Tech (Electronics and Communication Engineering), Bharati Vidyapeeth, Pune 2022 – 2026

SKILLS

Core Web	HTML, CSS, JavaScript · **TypeScript (Proficient)**
Frontend	**React, Express.js, Tailwind CSS**, Framer Motion
Testing	*Currently Learning:* Automated Testing (Jest, Cypress)
Design	Figma, Design Systems, UX Research, Design Handoff

EXPERIENCE

Product Designer & Frontend Developer — Indxx *Jun 2025 – Present*

- **ICAL (Internal Tool): Reduced analyst workflow time by 35% by redesigning** the ICAL platform with role-based panels and automated audit trails.
- **Client Delivery Platform: Led design** for QA and logic checks for a high-stakes delivery system managing audit files, client repositories, and sensitive documentation.
- **ITICS (Intelligence Systems):** Engineered data-heavy frontend modules using **React** and **Tailwind CSS**; optimized dashboard performance by **50%** through custom REST API integrations using **Express.js**, server-side pagination, and complex multi-parameter filtering for sectorial market analysis.
- **Platform Engineering:** Shipped admin and analyst UIs (cadmin, ICAL, ITICS Workbench) with job-status dashboards, validated forms and light/dark theming; hardened ICAL with a Content-Security-Policy and HTTP security headers generated from environment config; migrated ITICS marketing-site transitions from Next.js Pages Router to App Router.
- **Tech Stack:** Leveraged React and Tailwind CSS to translate high-fidelity Figma prototypes into a production-ready Client Delivery Platform, ensuring **100%** design fidelity across audit workflows.

UX Designer — EvenStar Media Pvt Ltd *Apr 2025 – June 2025*

- Led end-to-end brand systems and digital campaign design for **10+ clients** across industries.
- Produced reusable component libraries and style guides, reducing design-to-handoff time across client projects.

Jr. Data Analyst — Data Digitization Technology Pvt *Aug 2022 – Nov 2022*

- Analysed medical sales data (Mankind, Cipla, Abbott) using Python & Excel; automated reporting dashboards that cut manual errors by **50%**.
- Identified high-performing regions and product lines, surfacing insights that directly informed sales growth strategy.

PROJECTS

Aphelion — Social Video Publishing Platform *React, Python, AWS S3/CloudFront, GitHub Actions*

- Full-stack app to upload a video once and publish or schedule it to LinkedIn, with roles, approvals and per-post audit trails; verified against the live LinkedIn API. Deployed via Vercel, Render and an S3/CloudFront media pipeline with CI/CD.

Orbit — Systematic Trading Research Tool *Python, React, GitHub Actions*

- Built a self-learning RSI-divergence model with per-timeframe backtests, alerts and an installable web terminal; tested an astrology-based signal with multiple-testing correction (Romano–Wolf) and found no edge.

Dentiq & Progress Tracker *MERN, PWA*

- **Dentiq:** clinic CRM with WhatsApp template messaging (Graph API), session auto-logout and Vercel CI/CD. **Progress Tracker:** nested-timeline tracker with streaks, list-paste import and tests.

rokda.com — Forex & Crypto Insights Platform

- Designed trader-focused user flows for analytics and emotional bias tracking; introduced a data-UX system linking

behaviour patterns to market bias decisions.
- Tools: Figma, Notion

EXTRA-CURRICULARS

Design Head — CLIXZY Media Pvt Ltd *Feb 2023 – Feb 2025*

- Managed event logistics and visual identity for Bhartiyam Fest; oversaw junior designers and maintained brand consistency across all collateral.

Creativity & Design Coordinator — ECSA, BVCOE *Feb 2023 – Feb 2024*

- Directed inter-college branding and social campaigns; introduced design templates and tracked CTR via Looker Studio SQL dashboards — boosting event registrations by **63%**.

Jr. Data Analyst — Entrepreneurship & Development Cell (EDC) *Nov 2022 – Feb 2023*

- Consolidated datasets from campus ambassadors using Pandas ETL and SQL; built dashboards visualising Tier 1/2/3 performance and improved reporting time by **50%**.
